

APAC Gas and Power

Introducing CSM+ | Enhanced commercial model, simplified offering—limitless insights

At S&P Global Commodity Insights, we understand the need for a comprehensive and connected view of the energy and commodity markets. That's why S&P Global Platts and IHS Markit ENR have joined forces to offer the most complete source of essential intelligence to elevate your decision-making. Our new customer-centric service model, CSM+, simplifies access to our information and provides the data, content, and tools you need in one enterprise-wide contract.

With our full strategic perspective on gas and power markets, including forecasts of supply and demand, market research, and interactive dashboards, you can evaluate short-term and long-term opportunities, model risk, and plan with confidence in both conventional and renewable industries.

Overview

Geographic coverage ———— Asia-Pacific (APAC)

Content package options ———— Market Data, Market Insights options

Licensing ———— Enterprise-wide access, Forecasts and outlooks to 2050

Market Data

Get industry benchmark price indices, underpinned by robust and transparent methodologies.

You get:

- Uranium prices
- Coal price assessments
- Historical data

Market Insight

Get access to real-time updates, breaking news, analysis, forecasts, fundamental data, and tools.

You get:

- Real-time alerts
- Publications: Market reports and research
- Industry news and analysis
- Market commentary
- Market hears
- Analytical tools
- Fundamentals data
- Forecasts
- Maps and geospatial

Data and distribution

Get the edge in today's global markets with our Essential Intelligence® delivered through the providers and platforms which suit you.

Markets covered:

Natural Gas

Power

Renewables

Coal

Key service highlights

- Research supported by the local APAC team of over 40 analysts and consultants.
- Coverage of 19 markets across Asia-Pacific, including sub-regions of Greater China, South Asia, Southeast Asia, and OECD Asia.
- More than 50,000 conventional and renewable power plants/projects covered in the database.
- Comprehensive policy tracking and impact analysis.
- Supply, demand, cost and price forecast to 2050.
- Uranium and coal price assessments.
- Industry news
- Market commentaries

Key market insights

- **Timely in-depth analysis of key market developments** including trends, policy, infrastructure, pricing, and demand.
- **Market dashboards:** long-term gas and power outlook for demand, supply, and prices per region up to 2050.
- **Asia assets, projects, and costs:** power plant level project details, asset ownership, levelized cost of electricity (LCOE), PPA/FIT/Contracts, and summarized Clean Power Additions Ranking Index (CPAR).
- **Provincial and state level analysis** for India and Mainland China.
- **Asia power market tracker:** the most up-to-date power demand, power generation, and power price data.
- **Country profiles:** includes the regulatory environment, fundamentals, infrastructure, logistics pricing, and long-term market outlook.
- **Coal trader international:** provides daily information on price movements in China, EMEA, Asia, Australia, and South America.
- **Coal trader** providing daily information on price movements in the U.S.

How customers are using our data and insights

Oil and Gas companies: Assess ways to diversify their portfolio and develop strategies to reach net-zero targets.

Power and Utility companies: Investigate the power assets development opportunity and access the risk to enter the new market.

Financial institute: Spot investment opportunities in energy securities, infrastructure, and M&A deals.

Power equipment manufacturers: Follow market trends and identify new sales opportunities in different markets.

Engineering, procurement, and construction (EPC) companies: Screen project pipelines and spot business opportunities.

Large energy consumers (Industrials/Materials/Information Technology): Understand the green power procurement options, cost, contract terms, and potential partners.

Government and institutions: Collect market research insight, policy impact analysis, and long-term forecasts.

Why choose this service

- Support strategic planning and investment processes in diversified regional markets under consistent assessment methodology.
- Predict shifts in policy, regulation, and technologies during the energy transition with short-term to long-term impact analysis.
- Get a long-term view of regional energy markets and identify business opportunities with cross-commodity competition analysis.
- Mitigate investment risks with comprehensive data, insights, and quantitative forecasts.
- Identify project opportunities and competitive landscaping.
