

EMEA Gas and Power

Introducing CSM+ | Enhanced commercial model, simplified offering—limitless insights

At S&P Global Commodity Insights, we understand the need for a comprehensive and connected view of the energy and commodity markets. That's why S&P Global Platts and IHS Markit have joined forces to offer the most complete source of essential intelligence to elevate your decision-making. Our new customer-centric service model, CSM+, simplifies access to our information and provides the data, content, and tools you need in one enterprise-wide contract.

With our full strategic perspective on gas and power markets, from daily news and price assessments to forecasts of wholesale market prices through 2050, backed by detailed modeling of supply - demand, and analysis of policy and regulations, you can evaluate short and long-term opportunities, model risk, and plan with confidence in both conventional and renewable industries. Content is delivered through interactive dashboards, APIs and focused reports.

Overview

Geographic coverage — Europe, Eurasia, Middle East, and Africa

Content package options — Market Data, Market Insights, Risk Market Data

Horizon — Market forecasts to 2050

Licensing — Enterprise-wide access

Market Data

Get industry benchmark price assessments, underpinned by robust and transparent methodologies.

You get historic data and daily price assessments for:

- European gas
- European power including spark and dark spreads, coal switching indicators, captured prices, power purchase agreements (PPA) and competitive fuels
- Carbon
- Coal
- Uranium
- Guarantees of Origin (GOs)

Market Insight

Get access to real-time updates, breaking news, analysis, forecasts, fundamental data, and tools.

You get:

- Real-time alerts
- Publications: Market reports and research
- Industry news and analysis
- Market commentary
- Forecasts and fundamentals data
- Analytical tools, APIs and dashboards
- Power Asset Database, including maps and geospatial

Risk Market Data

Get editorially assessed and quantitatively derived forward curves data and visualization for key trading hubs.

You can:

- Validate internally derived curves
- Mark-to-market your portfolio to determine profit and loss
- Calculate key risk metrics such as Value-at-Risk
- Report the fair value of financial instruments
- Manage counterparty credit exposure and collateral requirements

Data and distribution

Get the edge in today's global markets with our Essential Intelligence® delivered through the providers and platforms which suit you.

Markets covered:

Sector	Platts Price Assessments
European Gas	UK NBP
	Dutch TTF
	Belgian ZeeHub
	French PEG
	German Gaspool
	German NGC
	Austrian VTP
	Italian PSV
	Spanish PVB
	Czech Rep VTP
	Slovakia VTP
European Power	New Netherlands (SMR) Hydrogen price assessments
	Platts UK Assessment (GTMA, GBP/Mwh)
	Guarantees of Origin Nordic Hydro
	Guarantees of Origin EU Wind
	Spark Spreads
	Dark Spreads
	Competitive Fuels
Coal Switching Indicator	
Uranium	Nuclear
Coal	Platts NEAT
	Platts SEAT
	FOB Kalimantan
	CIF ARA
	FOB US

Key service highlights

- **Integrated analysis** for carbon, coal, natural gas, low-carbon gas, power and renewables informed by analysis of the LNG, North American and APAC markets and the supply chain for clean energy technologies.
- **Daily price assessments:** Daily natural gas pricing for 11 hubs, coal and power pricing for 5 hubs, carbon pricing, hydrogen and renewable price indicators including guarantees or origin, captured prices, and PPA prices.
- **Geographic scope: Europe, Eurasia, Middle East and Africa.** For Europe 36 countries are analysed, including all 27 EU member states, the UK, Turkey, Switzerland, Norway, and the Balkans. In Eurasia, 12 countries are covered, and a further 12 in the Middle East and Africa.
- **Ad-hoc focused reports:** in-depth, strategic reports covering energy policy, market fundamentals and major events.
- **Webinars and events:** Including in-person briefings, monthly webinars on market movements and ad-hoc webinars responding to major events.
- **Power Asset Database:** Access to comprehensive database of over 12,000 EU power plants and clean energy technology projects.

Key market insights

- **Comprehensive market coverage:** Supply, demand, price outlooks for carbon, coal, gas (natural and low-carbon) and power markets, and LCOE projections from same-day to 2050, supported by detailed analysis of government policy.
- **Interactive dashboards and APIs:** Information is visualized through graphs, maps, and tables that can be fully customized. APIs allow seamless integration of content into your processes.

Europe

- **European Gas and Power Daily:** Daily summary of pricing data, policy and regulatory announcements, market-moving news, and the latest analysis of market fundamentals.
- **Regular forecasts of prices for carbon, coal, gas, and power, and market fundamentals:** Weekly report for gas and power with a 2-year horizon. Long-term outlooks to 2050 updated x3/year.
- **Full energy spectrum:** Demand by sector and fuel and GHG emissions to 2050 to understand cross-fuel competition and sector coupling dynamics.
- **Policy tracking:** Monthly review of energy policy and regulatory developments.

Eurasia

- **Ad-hoc in-depth reports:** Topics covered include upstream, midstream and downstream oil and gas, electric power, coal, domestic energy consumption and energy exports.
- **Regular analysis:** Reports on important topics such as regional political issues and energy transit, economic development, regulatory issues, taxation and fiscal terms, company activities, strategies, and performance.

Middle East & Africa

- **Long-term supply and demand:** National outlooks for 12 countries with sub-regional outlooks for the rest of the region.
- **Policy analysis:** Review of price formation, renewable energy policies, market structure and regulation, demand drivers and the role of the public sector. Delivered through country profiles for 12 countries and through topical reports for the other markets.

How customers are using our data and insights

Traders: Validate price benchmarks and short-term fundamentals to determine trading position, evaluate potential trades and spot market opportunities.

Strategy, investment, business development and planning: Position long-term outlooks, develop capacity investment strategies, evaluate new build or acquisition targets, and fortify recommendations to C-Suite executives.

C-Suite: Deliver commercial outcomes, understand emerging trends, assess competitive advantage, and support conversations with investors.

Why choose this service

- Inform trading strategy with access to daily price assessments for key European markets.
- Stay up-to-date with real-time news and analysis of key price and market fundamental developments.
- Keep track of short-term and long-term price forecasts and market trends.
- Integrated European supply and demand balance analysis to assess relationships between commodities and understand the impact of climate policies on the energy sector.
- Make better business decisions with impartial, reliable assessments and insights derived from our transparent and consistent methodology.
- Intuitive platform and data delivery – Save time and resources analyzing data, real-time insights, research, and reports easily.
